

Katy Periodontics Hygiene Study Club

Presents

Breathless: Oral Signs of a Silent Epidemic

Speaker

Kathryn Gilliam RDH, BA

About Our Speaker

Kathryn earned her Bachelor of Arts degree in journalism from the University of Nebraska. She then graduated at the top of her class from the University of Texas Health Science Center Dental Hygiene School. She combines her passion for patient care with her love of writing and has published numerous articles in respected dental journals such as The Journal of the Academy of General Dentists, RDH, Dentistry Today, and Hygiene Mastery Magazine. Kathryn's continuing education courses have been featured on ineedce.com and Dr.Bicuspid.com.

Course Description

It is estimated that approximately 23 million adults in the United States have undiagnosed or untreated moderate to severe obstructive sleep apnea. Breathing is the most essential function of our bodies. Without oxygen, we cannot survive. Yet until recently, breathing was not considered a part of dentistry's scope of practice. With new scientific discoveries, we are learning about the critical role of the form and function of oral structures in sleep-disordered breathing.

After completion of this course, you will:

1. Identify various types of sleep-disordered breathing.
2. Describe effective screening processes for identifying sleep-disordered breathing.
3. Recognize the signs and symptoms of sleep-disordered breathing in children and adults.

Date and Schedule

Thursday, July 27, 2023
Dinner at 5:15PM followed by lecture

CE hours

2.0 hour - Lecture

Registration Information
